EXPOSITION WILL OPEN TOMORROW IN BLAZE OF GLORY

MORTGAGE RELEASE IS A FORGERY

When Beryl Gregg, attorney, searched the records at Martines to ascertain whom to make defendants in a suit to foreclose on a mortgage on Richmond property valued at \$2500, he discovered that a satisfaction of the mortgage supposed to have been signed by him had been recorded a year ago. Gregg, who is attorney for J. R. Mitchell, Mayor of Woodland, has branded as a forgery the instrument acknowledged before Charles Edelman, a notary public of San Francisco, on February 10, 1914.

The property involved is that which Hudson Grant, as administrator of the estate of Mary McNeil of Woodland, claims has been secured by A. J. Bradford of Richmond by means of a deed to which Mrs. McNeil's name was forged and over which suit is now pending.

Mitchell is suing to foreclose on a mortgage which he holds from the dead woman and her husband, Henry McNeil.

THE PAUL GLASER ESTATE VALUED \$9500

Mrs. Selena Glaser, wife of Paul Glaser, the pioneer building contractor who passed away at his home at 203 South Thirteenth street on Friday morning, February 12th, today filed articles of administration in the court of Superior Judge McKenzie asking that she be appointed sole executor of the estate valued at \$9,500.

According to the articles filed by Mrs. Glaser the only other heir to the estate is a minor child, Charles Glaser.

RECORD-HERALD WILL NOT PUBLISH TOMORROW

The Record-Herald will not publish a paper tomorrow. The editorial and mechanical forces of the paper are desirous of attending the opening of the Panama-Pacific Exposition and for that reason advantage will be taken of the governor's proclamation making the day a legal holiday and all hands will go over to assist in opening the big show.

The paper will be published as usual on Monday with all the news of Saturday, Sunday and Monday.

Facts Concerning the P.P.I.E. At San Francisco

Celebrates the completion of the Panama Canal. Gates open at 9 a. m., Saturday, February 20; close Saturday, December 4, 1915.

Forty-three States and forty-two foreign nations represented officially; other nations by individual exhibitors; more than have been present at any other exposition in history.

Investment represented, \$50,000,000. Concentration of exhibit palaces a triumph of ground plotting. Contains the largest frame building under one roof in the world—Machinery Hall.

Transportation facilities available to handle fifty thousand visitors an hour to and from the exposition gates. Hotel facilities ample for any number of visitors. Reasonable rates guaranteed.

The only world exposition where climatic conditions make possible mural paintings on canvas on exterior surfaces.

Covers area of two and one-half miles in length by one-half a mile in width along shore of San Francisco bay.

Celebrating the completion of the Panama Canal, the Panama-Pacific International Exposition of San Francisco throws open its gates tomorrow morning. California invites the people of the world to pass in judgment upon the manner in which she has performed her duty as the hostess state for the nation's celebration.

It is a \$50,000,000 undertaking. Not in the history of world's expositions has there ever been one so colossal and yet so complete in detail. San Francisco alone contributed \$12,500,000; the State of California contributed \$5,000,000 and the forty-eight counties of the State contributed another \$3,000,000, expended on exhibits.

The foreign pavilions and exhibits represent an outlay of \$10,000,000, the State buildings and exhibits another \$10,000,000, and the capital invested in the amusement zone totals still another \$10,000,000.

Into what sum the amount expended by the 60,000 individual exhibitors will run has not been computed. This is the number of exhibitors—a figure to amaze. Another concrete fact that serves better than many words of writing to describe the immensity of the exposition is this: there are forty-seven miles of aisles in the eleven main exhibit palaces alone. An industrious healthy pedestrian, seeking conscientiously to visit each exhibit in these palaces, would be required to take thirty-one days of twelve hours each.

And this diverting peregrination would not include the National and State buildings, the amusement zone, the live stock section or the stadium.

This is the reason for a ten months' exposition. In that period, from February 20th to December 4th—from winter to winter as they say in San Francisco—the average visitor will have ample time to inspect at his leisure such features of the vast scheme as are of interest, instruction or amusement to him, or the exposition in its detail if it so suits him.

It is in every sense of the word a contemporaneous exposition. No article will be available for an award under the International Jury of Award unless that article was originated or produced since the St. Louis Exposition, ten years ago. Therefore the Panama-Pacific International Exposition will represent a decade in the progress of the world—the decade that has had crowded into it the supreme achievements of the century that has contributed more to progress than the combined centuries of the Christian era.

In general dimensions the grounds are two and one-half miles long and

one-half a mile wide. On this arena there are approximately 250 buildings, ranging from the behemoth of buildings, the Machinery Palace, to the ten foot fronts of the post card concessions. But every building, irrespective of size or location, is an integral part of the general ground scheme. The two main landscape effects are represented in the South Gardens, into which the main entrance gates lead, and the North Gardens, along the shore of San Francisco Bay.

Topping off the great exposition, affording the curious and interested visitor relaxation from viewing exhibits, is the Zone, where the concessionaires have assembled the greatest aggregation of laughter provoking devices in the history of the world's expositions. The investment in the Zone represents nearly \$11,000,000 and the one hundred concessionaires were selected out of 7,000 applicants as being sound financially and the best fitted of the entire list as amusement provokers. Here are found some of the biggest showmen in the world.

TRANSFER GENERAL CHEMICAL COMPANY

All of the holdings of the General Chemical company of California at Bay Point have been transferred to the parent corporation in New York. Stamps attached to the deed filed at Martinez show that \$1315 was the amount of war tax. This would indicate that the price for the property was \$1,315,000.

CHOPS OFF HIS HAND WHILE WALKING ASLEEP

The inquest held over the remains of John Muller yesterday at Concord by Coroner C. L. Abbott brought to light the fact that the aged farmer had arisen from a deep sleep at 5:00 o'clock in the morning and walking into the yard had taken a wood hatchet and while still under the somnambulist influence chopped off his right hand as a result of which his death came an hour later.

TO CONDUCT INQUEST ON FEBRUARY 23

Coroner C. L. Abbott will on Tuesday evening conduct an inquest at the Smallwood undertaking parlors over the remains of Mrs. J. Anderson who was struck by an automobile on San Pablo avenue Sunday night from which she succumbed later in the evening at the Craven hospital.

S. Horton, residing at 214 Ripley avenue who was driving the automobile at the time the accident took place is being held under \$1,000 bonds by Justice of the Peace McKenna.

TANKER FINALLY GETS STARTED YESTERDAY

For the third time the Standard Oil tanker "Richmond" with Stars and Stripes floating proudly from her forepeak, with Captain Bunting at her wheel and carrying a cargo of petrol valued at \$15,000,000 steamed through the Golden Gate at a late hour yesterday afternoon bound for New York.

On board the tanker serving in the capacity of a cabin boy is Wendel Bouquet, son of John Bouquet, prominent realty dealer of this city who has signed articles to remain with the ship until its return to this port.

Owing to the fact that the "Barge No. 95" which the "Richmond" was to tow to New York had not as yet been repaired following her collision with a Union Oil boat it was deemed best to have the trans-oceanic tanker sail without her.

Dr. G. McKenzie corroborated the testimony as given by C. L. Muller, son of the late farmer in that he said while an effort was being made to check the flow of blood that he was pursuing imaginary enemies and that in striking at what he supposed was a foe proved to be his hand.

Accidental death was the verdict as rendered by the coroner's jury.

STOLEN WRIGHT PROPERTY FOUND

Two small boys while playing in a vacant lot on Nevin avenue this morning, between the Richmond club building and the home of Mrs. W. W. McLarny, 115 Nevin avenue, discovered an Elks tooth, a diamond stick pin, a gold cross, and watch, all of which proved later to be the property of Mr. and Mrs. Stanley Wright, which was stolen from their home at 920 Barrett avenue last evening.

All of the loot with the exception of the five \$2.50 gold-pieces was found by the urchins who turned it over to the police.

It is the belief of Sergeant McGowan that the burglars following their daring entry into the Wright home sped across to the vacant lot where after a careful examination of their loot they decided that the \$2.50 gold-pieces would be the easiest to dispose of and threw the jewelry amounting to \$400 into the grass.

DISAPPEARANCE OF CASSEL CAUSES MUCH EXCITEMENT

Considerable excitement has spread through the congregation of the Calvary Baptist church of which the Rev. G. A. Wilson, residing at 530 Twelfth street, is pastor, over the sudden disappearance of Frank Cassel, treasurer of the Sunday School association and also the return of several checks from the Mechanics Bank of this city marked "No Funds."

Cassel who was formerly a cavalryman in the United States army corps in the Philippines, came to this city about one year ago at which time he made his home with Mr. and Mrs. E. D. Murphy at 528 13th street and soon began to take an active part in the affairs of the Calvary Baptist church.

Shortly after his coming here Cassel accepted a position with the Pullman car company which he held up until a few months ago when he was laid off with several other men for an indefinite length of time.

Elmo Murphy, son of Mr. and Mrs. E. D. Murphy and an employee in the office of Master Mechanic E. H. Harlow of the Santa Fe company, in speaking of the Cassel affair, today said: "The first that we knew of Cassel's disappearance was on Saturday when he failed to return to the house after having left early Friday evening. My mother who had always thought a great deal of the young man, owing to his exemplary habits, became alarmed at

his long absence. On the following Monday when Cassel did not put in an appearance Rev. Wilson, together with several of the church deacons investigated the books we kept by Cassel, with the result that they found a shortage and several checks marked "No Funds."

A further investigation by the pastor and the committee revealed the fact that all of the funds in the treasury had been disposed of.

George C. Henley, one of the deacons of the church in speaking of the affair today, said: "Please don't give this church affair too much notoriety as the people at large are ever eager to devour the news telling of a church scandal." Henley then went into detail, giving an excellent description of Cassel and also stating that a peculiar feature about the young man's appearance was his eyes which, according to Henley, could not look at a person. According to Henley, Cassel was also affiliated with the Young People's society of the church.

Charles W. L. Ballenger of the Mechanics Bank stated today that he was powerless to give out any information as to the funds which had been drawn from the bank.

According to the police no warrant for arrest has as yet been secured by the pastor or deacons of the church, therefore making it impossible for them to act in the matter.

MANNI FREED OF MURDER CHARGE

MARTINEZ, Calif., Feb. 19.—At a late hour last evening, and after the jury had been out but twenty-five minutes a verdict of not guilty was returned in the Peter Manni case, on the ground that at the time that he killed his wife he was temporarily insane.

There was much rejoicing among the aged man's friends when the verdict was announced.

The argument of Attorney Walter J. DeMartini, defending Manni was an able one. He went into every phase of the testimony and at times there was a noticeable crack in his voice.

He argued that Manni was undoubtedly temporarily insane and he pleaded that the step daughter had shown some very large differences in her testimony. He hinted that the \$400 in the Concord bank might possibly have had much to do with her indifferent attitude on the stand and he stated to the jury that if Manni was found guilty of murder the daughter will get the money and if found guilty of manslaughter she will get but half.

The consensus of opinion was that Manni would be freed upon the grounds brought out by the defense. Even lawyers, who had heard most of the case, ventured this as their conclusion.

The condition of the defendant, who had been weeping continually through the trial and the fact that the testimony of the alienists were much in favor of the old man. Attorney DeMartini certainly left no stone unturned in his efforts to free the defendant, and when he closed his argument it was with the knowledge that there was not a single question which could enter the minds of the jurors and which was not answered.

HALLOWELL CASE IN JURY'S HANDS

The suit of Alice Hallowell against the Union Oil company of Oleum, seeking \$10,000 for the death of her husband, Charles Hallowell a carpenter, who was burned to death by a fire which swept that company's plant on the night of December 14, 1913, was handed to the jury in Superior Judge McKenzie's court at Martinez at a late hour this afternoon for a final verdict.

Six attorneys from Oakland and San Francisco represented the plaintiff while the same number from the same cities represented the defense.

Hallowell, together with a Greek laborer, were the only two to lose their lives in the terrible oil fire which swept the entire plant of the Union Oil company doing damage to the amount of \$30,000.

CHINA AND JAPAN

And now comes evidences of a possible war between China and Japan. Meekly submitting to the violation of her neutrality during the processes of the fight between the Mikado and the Kaiser, China has at last asserted her independence and threatens Japan with force if she dares to enforce claims which virtually amount to annexation.

It is all a question of what resistance China can offer. Her neutrality is as much secured by treaty as that of Belgium and Luxembourg, which is to say that it is not secured at all. Roosevelt was at least right in declaring that no convention agreement is worth the papers it is written on unless backed by sufficient force to maintain its terms.

If there should be a war between the two countries, it is certain that Japan would have little difficulty in taking whatever ports she might desire, but the great Chinese hinterland would offer a stubborn obstacle. It is an obstacle even to the Chinese Government, as witness the futility of the efforts to suppress White Wolf and other pirates who operate on a scale amounting to a systematized industry.

The integrity of China is a myth, a fanciful dream of more or less interested diplomats. It has not been a reality for more than a quarter of a century, and has as much hope of being realized as the integrity of Africa.

Sooner or later, according to the opinion of an editorial writer in the San Francisco Chronicle, the great powers will divide up the empire to suit themselves, and, all things considered, there is more hope for the peace of the Western world in a Japanese hegemony than in that of any other foreign nation. Japan is growing even more rapidly than the most progressive European country. She has no rare suicide and needs a place in the sun, and China offers her best opportunity for expansion. All that America need worry about is whether Japan will preserve the same conditions in China that she has imposed in regard to her own domestic commerce. If she does, it will be open door enough for the United States.

THE DEMAND FOR CRUDE RUBBER

The India Rubber World complains that our British friends have been afraid to ship us rubber lest we get too much on hand and yield to the temptation or reshipment to the enemy. They can quiet their fears at once, for there is no possibility of such a contingency. We can use all the rubber that they can spare us. Last year the manufacturers of the United States consumed about 60,000 tons of crude rubber, one-half of this large volume coming from the East. In all probability the present year will see an increased consumption—provided we can get the rubber—of at least 15 per cent, or a total of about 70,000 tons. Assuming that the Eastern production reaches 70,000 tons during the current twelve months, we will doubtless be able to use one-half of it or more. To illustrate, there is the tire industry. There are now in operation in this country 1,600,000 motor vehicles of one sort or another, and it is a fair estimate to say that they will need between now and next January an average of six tires each, which means a consumption of nearly 10,000,000 tires. Again, the demand for rubber from the footwear manufacturers will be unusually large—not that up to the present time our winter has been marked by extreme severity, but simply because of the general cleaning up of stocks by foreign orders. Then the increase in the railroad rates recently granted by the Interstate Commerce Commission has already stimulated the demand for railroad equipment, and some of the transcontinental lines are arranging new financing on a large scale to supply such equipment, and more of course, more hose and more packing. It can be very safely said that we not only can but will use all the rubber England can spare us, and that there will be no surplus to be attracted abroad by unusual financial offers.

SAGE TEA KEEPS YOUR HAIR DARK

It's Grandmother's recipe to bring back color, thickness and lustre—Everybody is using it again

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks dry, wispy and scraggly, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold.

Don't stay gray! Look young! Either prepare the tonic at home or get from any drug store a 50 cent bottle of "Wyeth's Sage and Sulphur Hair Remedy." Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully and removes dandruff, stops scalp itching and falling hair; besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application

is here. A delight and an indispensable aid to those who have already used them. Just six minutes to clean, polish and dry the china, glassware and silver of a dinner for eight people.

No contact with hot water, steam or hot soapy suds. Self-cleaning, sanitary, no pump used. Small in size, easily lifted and carried. Strongly built of stamped metal.

Sent prepaid, returnable at our expense within ten days, if not exactly as represented.

It has a capacity sufficient to wash at one time all the dishes of the average family, yet is so light and portable that it can be easily moved from place to place. The movement of the handle forward and backward revolves the propeller in the bottom of the washer, which dashes the hot soapy water with a swirling effect around, through and over all the dishes, forcibly attacking them at all points, and cleaning them with absolute perfection on all sides. The dishes are completely washed in less than one minute's time and the washer works so easily that a child can operate it.

Turning down the small lever at the top of the washer, opens drain valve and discharges the water in a few seconds. The dishes are then rinsed and sterilized by pouring a dishpan of clear boiling water through the lid and turning the handle about thirty seconds. The rinsing operation automatically cleans the washer itself, which always remains in an absolutely sanitary condition.

Beautifully illustrated booklet showing every phase of the Whirlpool Sanitary Dishwasher sent on request.

Thousands are being sold by leading stores in Philadelphia, New York, Chicago, St. Louis and other large cities. The Whirlpool enjoys a monopoly of the market, and furnishes agents the best opportunities for quick money making available anywhere.

Congratulations To:

FEBRUARY 19th.

Dr. Thomas Jefferson Jackson See, the famous astronomer and mathematician of the United States Navy, is 49 years old today. He was born near Montgomery City, Mo., in 1866, was educated at the University of Missouri, and then went abroad to complete his studies. He was a volunteer observer in the Royal Observatory at Berlin and traveled in all parts of Europe. On his return to America in 1893. Although only 29 years old, he organized and had charge of the department of astronomy at the University of Chicago. At Flagstaff and the City of Mexico he examined some 200,000 fixed stars, which led to the discovery of 600 new double stars. In 1899 he was made a professor of mathematics in the United States Navy, and made observations at the naval observatory, taught at the Naval academy, and since 1903 has been connected with the Observatory at Mare Island Navy Yard, at San Francisco. During his extensive observation, he has measured the "milky way," and discovered that its depth is a thousand times greater than scientists had believed. He observed the San Francisco earthquake and promulgated a new theory on these disturbances. He has also advanced a new theory on the solar system which opposed the belief that the moon is a detached section of the earth. President Wilson commissioned him with the rank of Captain in the navy department in 1913. He has written extensively and is a member of many scientific societies.

Brigadier-General William Crozier, Chief of Ordnance, U. S., 60 years old today.

Dr. William F. Ganong, botanist at Smith College, 51 years old today. Dr. Stephen Smith of New York, pioneer workers for public health laws, 92 today.

Adelina Patti, the famous singer, 72 years old today.

Sir Sven Hedin, famous Swedish explorer and geographer, 50 years old today.

Rt. Rev. Nicholas A. Gallagher, Catholic bishop of Galveston, 69 years old today.

Rev. B. J. Bradley, president St. Mary's College, Maryland, 48 years old today.

FEBRUARY 20th.

Miss Mary Garden, one of the leading world figures in opera, is 38 years old today. Although not of American birth, her early life was spent here, and to her American friends she owes the inspiration that brought her to the world's notice. It was in Aberdeen, Scotland, that Miss Garden was born February 20, 1877. With her father, Robert D. Garden, she came to America at the age of 6, and lived at Chloopee, Mass., and Hartford, Conn., before removing to Chicago in 1888. She took naturally to music. At six she began to learn the violin and at 12 played in concerts with great success. Her notable success in an amateur performance of "Trial by Jury," given in Chicago, indicated her great talents as an actress, and 1896 she went to Paris and studied voice under the masters. It was at the Opera Comique that she made her debut and set Paris by the ears. In 1900, in the third act of "Louise," Mlle Riotta, the leading soprano, was taken ill, and Miss Garden was called upon to complete the performance. She continued in the part for 100 nights, and her success brought engagements at London and Brussels. Her debut in America was in "Thais," in 1907. She has appeared each season with the Chicago Grand Opera Company. Her impersonations are considered marvelous by the critics, and her acting is conceded to overshadow any lack of voice. Miss Garden never married. She is now on her way to Paris from America, where she has been visiting with relatives and friends.

Surgeon-General Charles F. Stokes, U. S. N., 52 years old today.

Hon. Herbert S. Hadley, former Governor of Missouri, 43 years old today.

Brigadier-General W. A. Garlington, U. S. A., 62 years old today.

Brigadier-General James Parker, U. S. A., 61 years old today.

Rear-Admiral Uriel Sebree, U. S. N., retired, 67 years old today.

Earl Beauchamp, first commander of works in the British Cabinet, 43 today.

Henry B. Ledyard, head of the Michigan Central R. R., 71 years old today.

Princess Royal of Great Britain, oldest daughter of late King Edward, 48 today.

"SALOMY JANE" ATTRACTION AT RICHMOND

"Man, what's your name?" says Salomy Jane, as she kisses the hero of the drama, "Salomy Jane" which is the big feature at the Richmond theatre today and tomorrow. The drama is founded upon Bret Harte's famous novel "Salomy Jane's Kiss" and is one of the best stories of early day California life ever penned. It is a tale of the gold rush when a new state was slowly finding its way to a firm foundation and society was being brought from chaos to a conventionality. Salomy Jane's impulsive love for the "Man" and her escape of the Vigilantes. There are thrills a plenty and Beatriz Michelena as Jane has a part true to her heritage as a native daughter of the Golden West.

Charles Chaplin in a brand new creation, "His Love Pangs," is a whirlwind of fun and amusement.

Oiliness

Without "oiliness" any lubricant would be worthless. You can feel the oiliness of Zerolene by pouring a little on a piece of glass and rubbing it around with your finger. Oiliness is in reality the molecules of the oil rolling over each other—miniature ball bearings as it were. Thus when you use a good oil like Zerolene the wearing surfaces of your engine roll over these "ball bearings" instead of rubbing together. Dealers everywhere.

SUFFERS FROM ATTACK OF HEART FAILURE

Grave fears were entertained for the recovery of Mrs. W. A. Foster, residing at 233 Eighth street last evening following an attack of heart failure which came upon the aged woman last evening just as she had finished her supper. So critical did her condition become that it was found necessary to summon Dr. Hall Vestal.

A report today from the attending physician gives the woman's condition as considerably improved.

URGES "WOMAN'S PARTY" TO END WARS

More than a thousand leading women of the United States, assembled at the Nation's capital, have united in an effort to end war among civilized nations forever. The organization, known as the "Woman's Peace Party," is based on the idea that man's efforts for peace have been a failure for over five hundred years.

The message flashed across the country from the meeting is that "the greatest price Europe is going to have to pay is not even in the lives of men she is now giving, but the blasted lives of generations yet unborn."

These were the words of Miss Susanna Crockett, the well-known health advocate of Chicago who participated in the big peace meeting. Miss Crockett has a following of more than twenty thousand women throughout the world.

"No nation is greater than the strength of its mothers," says Miss Crockett in her plea to American womanhood. "During the past 600 years, I have been devoting my time to building up the mental and physical strength of womanhood all over the world and the point of view of woman's interests is the effect of this war upon the health of this and of the next generation. No nation is greater than the strength of its individual members."

"Worry, hatred, anxiety and fear must be the consuming thought of the mothers and sisters of Europe today. These are eating at the very heart of national strength. Our mothers and sisters across the sea have little heart for food. Their bodies, consumed by worry, anxiety and fear grow weak and inefficient."

"Emperor William himself is demonstrating the effect of worry on his own health. He is a keen student and he knows well that he should avoid worry, fear, jealousy and hatred as he would avoid contagious diseases."

"While jealousy, fear, anxiety and hatred affect disastrously the health of a nation, their opposites, sympathy, kindness, love and goodness build up the nerves and strengthen the health. One great good to American womanhood brought about by this war, is this building of health and life through generous giving. Not the giving of money but of sympathy and love—the giving of self. As we give, so do we grow, physically and spiritually."

while between dances refreshing punch will be dispensed.

WINEHAVEN LADDIES TO DANCE TONIGHT

The second annual ball of the Winehaven Volunteer Firemen will be held at East Shore park this evening at which time Elmo Pinkerton, captain of the Calwa baseball team, will act as official floor manager.

Pinkerton will be assisted on the reception committee by Amos Moss, Ray Remue and Charles Langridge.

Musical for the dance will be furnished by the Schwartz orchestra.

BRADSHAW FUNERAL SERVICES ARE HELD

The funeral of John Preston Bradshaw, 78 years of age, a retired farmer who passed away at his home at 2439 Main street following a lengthy illness was held from the Smallwood undertaking chapel at 2:00 o'clock this afternoon. Interment taking place in Sunset View cemetery.

The funeral services were presided over by Rev. Guy A. White of the First Presbyterian church.

TAKE SALTS TO FLUSH KIDNEYS

Eat less meat if you feel Backache or Bladder troubles you—Salts is fine for Kidneys.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach scours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush out the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

DRINK HOT TEA FOR A BAD COLD

Get a small package of Hamburg Breast Tea, or as the German folks call it, "Hamburger Brust Thee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teaspoon full at any time during the day before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus driving a cold from the system.

Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

RUB BACKACHE AND LUMBAGO RIGHT OUT

Rub Pain and Stiffness away with a small bottle of old honest St. Jacobs Oil

When your back is sore and lame or lumbago, sciatic or rheumatism has you stiffened up, don't suffer! Get a 25 cent bottle of old, honest "St. Jacobs Oil" at any drug store, pour a little in your hand and rub it right into the pain or ache, and by the time you count fifty, the soreness and lameness is gone.

Don't stay crippled! This soothing, penetrating oil needs to be used only once. It takes the ache and pain right out of your back and ends the misery. It is magical, yet absolutely harmless and doesn't burn the skin.

Nothing else stops lumbago, sciatic and lame back misery so promptly!

NOTICE TO BIDDERS

OFFICE OF THE CLERK OF THE CITY COUNCIL OF THE CITY OF RICHMOND, CALIFORNIA

Sealed bids will be received by the Clerk of the City Council of the City of Richmond at his office in the City Hall of the City of Richmond, Richmond, California, until Monday, the 1st day of March, A. D. 1915, at eight o'clock P. M. of said day, at which time and place all bids will be publicly opened and read, for the construction of a re-inforced concrete wharf (to be known as Municipal Wharf, No. 1, Richmond Harbor) on the water front at Point Richmond, as described in the contract, plans and specifications, for the work on file in the office of the Clerk of the City Council of the City of Richmond.

All bids shall be subject to all requirements of the contract, specifications, plans, contractor's bonds, and proposal sheets, all of which are hereby referred to and made a part hereof, and all of which are on file with the Clerk of the City Council of the City of Richmond.

Copies of the notice to bidders, proposal sheets, contract, specifications, plans and Contractor's bonds, will be furnished to prospective bidders on application to the office of the Engineer, P. A. Haviland, of Haviland & Tibbitts, Alaska Commercial Building 310 Sansome Street, San Francisco, California.

WOMEN WHO ARE IN THE NEWS

PARIS—Running a city "without men" is the novel experience of Paris today. The women are managing the railways, hospitals and hotels; move baggage, serve as conductors, chauffeurs, and cab drivers; and even clean streets, do carpenter work and handle the pick and shovel.

LONDON—Mrs. J. C. Jenkins, an American woman from Minneapolis, aided by a coterie of American women here, has opened a factory where the unemployed are given work. It is a knitting mill, and gloves and socks are being turned out for the soldiers.

LOUISVILLE, Ky.—Mrs. W. B. Dixon, known to every child in Louisville as the "story lady," has talked to over 6,000 children in and near Louisville. Kindness to animals is her theme, and her work is being supplemented in other parts of the state by the Women's Auxiliary of the Kentucky Humane Society.

BOSTON—One of the most interesting of the European women who have come to America in the interests of the sufferers in the war zone is Countess Dumas. Although she is American born she has lived since childhood in Paris. Her husband is the great-grandson of Count Dumas who was a friend of Lafayette and the aide of Count Rochambeau in the Revolutionary War. She is pleasing the cause of war sufferers in France.

ATLANTIC CITY, N. J.—That 100,000 babies have been saved in the United States through a nationwide campaign of education of mothers, was one of the important reports submitted to the National Mothers' Congress.

NEW YORK—Arrangements are already being made for the biennial convention of the Federation of Women's Clubs, to be held here in May, 1916. The council will be held at Portland, Oregon in June.

NEW YORK—Mrs. Archibald Alexander of Hoboken, friend and associate of Miss Anne Morgan in her civic uplift work, is to marry again. The bridegroom will be Mr. H. Otto Flitpen, now a naval officer, and formerly mayor of Jersey City. The romance is said to be a direct result of association in welfare work.

SAN FRANCISCO, Calif.—Miss Greta Johanson, 18 years old, who won the world's championship for grace in high diving at the Olympic games in 1912, has been appointed a member of the department of physical education in the University of California. She will teach the codes of the art of swimming.

The opening conference of American women working for peace in Europe and for the abolition of war among all civilized nations will be held here July 4th. It is hoped to make Independence Day more noticeable by the steps for peace to be taken at that time.

ST. LOUIS, Mo.—A fashion show for the women of the South, West and Southwest will open here on March 15th.

Although her father opposed, Miss Marjorie Pepper Bell, known as the "million dollar princess" will wed next June. She is only 17. She will be the bride of Richard Hinrichs of St. Louis.

SPRINGFIELD, Ill.—One of the most sensational statements in regard to eugenics is that which accompanies the bill for the adoption of a eugenics law in Illinois. Records of examinations at the Coulter Settlement in Chicago showed that 65 to 70 per cent of operations on women are for diseases that would cause marriage licenses to be withheld. The Wisconsin law is causing a decrease in weddings and the Oregon law is being dodged by residents who go to neighboring states to wed. The Indiana senate recently passed an eugenics bill, and other states are tackling the problem.

WELLINGTON, New Zealand—An election joke was recently perpetrated on the politicians by the brown-skinned Maori women, who put up their own candidate and elected him over seven candidates of the regular politicians. The women frankly admit that it was because their favorite was young and handsome that they thrust greatness upon him.

WASHINGTON—A statue of William Pitt, the great English statesman and friend of America during revolutionary days, will be unveiled here next October. It is the gift of American women living in England.

MINNEAPOLIS, Minn.—One of the most touching appeals from the war zone is that of Mrs. E. W. Shurtliff, formerly of Minneapolis. She is devoting herself to caring for the blind who have been driven from the

WINNERS OF PRIZES AT THE WHIST PARTY

Winners at the whist party held in Fraternal hall last evening by the members of the Fraternal Aid Union were G. E. Williamson, Geo. Kinstrom, C. S. Warren, Mrs. W. A. Vickery and William Boese.

Following the awarding of the prizes dainty refreshments were served by the committee in charge.

FREE LECTURES ON BIBLE TOPICS

At College hall, Fourth and Macdonald avenue. Sundays at 3 p. m. The public is cordially invited to attend. No collections.

The Associated Bible Students for 40 years have been calling attention to the time set for the present world war, through the prophecies of the Bible.

The Photo Drama of Creation that has been shown free to the public in America and Europe by this Association for the past year has helped to clear up much of the confusion and misunderstanding of the scriptures caused by the conflicting creeds.

These lectures will answer satisfactorily nearly all the difficult questions in the minds of many. Don't fail to attend. The schedule is as follows:

Feb. 21.—Jehovah's Footstool. H. M. Fitch.
Feb. 28.—The Signs of Christ's Presence. W. L. Domick.
Mar. 7.—Is This God's Day of Wrath? Robert Craig.
Mar. 14.—Earth's Great Jubilee; H. Schumacher.
Mar. 21.—Thy Kingdom Come; L. T. Corti.
Mar. 28.—Why God Permits Evil; F. H. Driscoll.

HOW DIPLOMACY BROUGHT BACK PROSPERITY TO ONE INDUSTRY

THEY KEEP THEIR JOBS

Autoists may thank Providence that the European war is not to cause a rubber famine with consequent soaring prices for tires.

But it would be more to the point for them to thank B. G. Work, plain citizen of Akron, who went to England early in January, hobnobbed with the nobility in the British Foreign and Admiralty offices, and in a few hours did what American State Department diplomacy had been trying to do for weeks—paved the way for the release of crude rubber shipments to American ports.

Modestly Mr. Work disclaims the full credit for his feat. He protests that the work of our State Department had at last been successful and that on the day of his arrival in London it had been decided to raise the embargo, although the details were to be perfected later.

The situation for Akron and the rubber business in late December was rather desperate. Great Britain, realizing the vast importance of rubber in warfare—for transport tires, surgical supplies, Zeppelin fabric, as well as for footwear, blankets and clothing for the men in the trenches—had decided to prohibit the exportation of rubber from British colonies lest a supply of the precious stuff find its way to Germany.

B. G. WORK

At one stroke half the world's crude rubber supply was cut off, since the production of rubber in plantations in Britain's Far East had vastly increased in the past six years, and America, which consumes most of the crude rubber of the world, and Akron, America's chief rubber-consuming city, were the sufferers. Washington was appealed to, but the State Department, in weeks of

negotiation, apparently could do nothing. Then the Rubber Club of America, which includes the leading rubber manufacturers and importers, decided to act on its own initiative. It looked about and selected Mr. Work to appeal in person to the lords of the British government.

How this Akron citizen took his blunt business methods into the great government offices of England, matched his ability with the highest skilled diplomacy on earth, and worked out a complete solution of the vexing problem, is too long to tell here. The upshot of it is that any American manufacturer may now import British rubber by giving bond that he will not export it to Germany. The British consul-general at New York has appointed a special agent to aid small importers to get rubber.

"I do not believe we need fear any further interruption in the rubber supply," says Work. "That supply will soon be taken by American manufacturers at the rate of \$250,000 of it a day."

The effect of this agreement on the American rubber market was instantaneous. Brazilian rubber dropped 25 cents a pound with a thud, and did not show the rubber characteristic of rebounding. Akron's thousands of idle men will go back to work, and the Akron people regard B. G. Work as the day's chief benefactor.

CATARRH OF HEAD AND STOMACH

Took Peruna Five Bottles Cured Me

Mr. Frank Richter, No. 309 East Second St., Winona, Minn., writes: "My catarrh was principally located in my head and stomach. I tried many remedies without success. I tried several doctors, but they were unable to cure me. I read of Peruna in the papers, and five bottles cured me."

"As a remedy for catarrh I take pleasure in recommending Peruna for catarrh of the stomach. I know what it is to be afflicted with this awful disease and consider it my duty to say a word in behalf of the remedy which gave me such relief. Peruna cured me, and I know it will cure any one else who suffers from this disease. It gives me great pleasure to testify to the curative effects of this medicine. Peruna is a well tested and frequently used remedy, and for catarrh of the stomach it is unsurpassed."

As a rule, people when ailing apply very properly to a doctor before resorting to a ready-to-take medicine. The great majority are cured by the doctor. But a per cent. of chronic cases fail to find a cure and at last begin to use ready-to-take medicines. It is very noticeable indeed the number of people among our testifiers who say that it was only after the doctor had failed to cure them that they were induced to take Peruna. Then they find to their relief, to their surprise, to their joy, that Peruna is the remedy they should have taken at first.

CALIFORNIA COUNTIES OCCUPY PALACE OF HORTICULTURE SPACE

When the first announcement was made in the State of California that the officials of the Panama-Pacific International Exposition were dedicating individual days to the various counties of the state as a recognition of the wonderful aid the counties had given the exposition the thoughts of everyone centered on about the same details.

The \$5,000,000 bond issue, the \$2,000,000 California building and the marvelous displays were uppermost in the minds of the greater number and although the 58 counties have done these things they have also taken the lead in the beautiful Palace of Horticulture and will make the world envious of the 10,000 square feet of space the counties have prepared in this spectacular structure.

The California counties have nearly one-fourth of the total floor area of this great palace and in the very center of the acres. The facades surrounding California's exhibit space are of the French Renaissance, in keeping with the ornamentation of the palace itself. They are finished in green lattice work covered with luxuriant vines and banded on all sides with great quantities of cut flowers.

At intervals, around the 500 feet comprising the four sides of the booth are large specimens of growing orange, lemon, pomelo, olive and other trees loaded with ripe fruit and making an orchard under roof.

In the center of the exhibit space is an area 35 feet square, built two stories high. The upper floor is devoted to a rest room and lounge place luxuriously fitted up. Below the rest room is the complete exhibit of the State Board of Horticulture showing every phase of its activities from the extermination of insect pests to the grafting of paper-shell walnuts on an oak tree.

The complete commercial exhibit, showing fruits in graded boxes and standard containers with a cold storage plant for fruits, is grouped around the State Board's display. A citrus fruit orchard scene with bearing trees blends into a painted background.

Each of the four corners of the main space are filled with great pyramids made up of all sorts of canned and processed fruits, grouped by products as well as by the counties making the exhibits.

A beautiful booth is devoted to the nut industry, showing new ways of utilizing almonds, walnuts and pecans. The dried fruit industry is equally well represented.

Just within the facades and in all the arches there are lines of tables nearly 500 feet long filled with basket and fruit displays of all kinds.

The visitors who are thirsty will be regaled with soft drinks such as real California Orange punch, grape juice and less known but equally promising beverages.

Manufacturers and packers have sales departments in connection with their exhibits.

The palace of Horticulture at the exposition is at the left of the main entrance gate and occupies the same relative position as Festival Hall, which will be the scene of much of the ceremony of the County Dedication Days. The Palace of Horticulture is in great part copied from the architecture of the Mosque of

Sultan Ahmed I. and its spires and minarets are truly saracenic.

The detail of the ornamentation is of the French Renaissance and the huge glass dome in the largest of glass in the world. It is 165 feet high and 152 feet in diameter. Under this dome is the greater part of the Cuban exhibit of tropical trees and plants.

MISS R. PETERSON HONORED BY STUDENTS

The members of the Rodeo society of the Richmond Union High School entertained at a delightful banquet held in the auditorium of the school last evening in honor of Vice Principal Miss Ruth Peterson.

At the banquet speeches were made by various members of the club representing certain well known people as follows:

Miss Edith Delph as Sylvia Pankhurst took as her topic, "Now or Never." Clarence Brown as John Rockefeller upon "The Millions I've Spent;" "My Eyes are Upon You," by Joe Sharpe as Woodrow Wilson; "Our Usual Low Prices Prevail," by Doris McLarney; and "Pearls of Wisdom" by Irene Grunhut.

MANY CARS ARRIVING FOR THE SHELLS

According to Station Agent Young of the Southern Pacific at Martinez there have been 200 carloads of material sent there for the Shell company since it began operations, and his company has arranged to handle 750 more cars, making a total of 950 cars already planned for.

These cars are arriving at the rate of twelve and fifteen each day and the Fairfield spur, which has been extended as far as the supply house of the Shell company, is crowded with cars of material.

This spur is the only one to be laid until the weather settles when two "Y's" will be arranged to traverse to different sections of the plant.

Figures compiled by superintendents at the big plant show that when all the pipe is laid in the local yards it will reach the extraordinary figure of 191 miles. The cars now arriving are mostly pipe, steel and rock for ballasting the roads.

The first of the tanks being erected on the hill near the town of the Lacy Manufacturing company is about one-third completed. The company is now working 250 men and as fast as the material arrives more will be added. Just as soon as the weather permits the work will be continued with a vim.

MIDGETS ARRIVE HERE FOR EXHIBITION PURPOSES

Twenty midgets ranging in size from twenty-four inches to forty inches in height began to scramble off the Overland Limited at Ferry Point today, preparatory to boarding the Steamer San Pedro for the Exposition grounds where they are to anticipate at the fair.

The Overland Limited, drawing twelve Pullmans from Chicago, and carrying several hundred Exposition tourists, arrived at the mole on time, even though several bad washouts along the line threatened a delay.

BYRON-BETHANY IRRIGATION DISTRICT

Success will crown the efforts of those working on the Byron-Bethany irrigation project in the Eastern end of the county. At the first annual stockholders' meeting, held at Byron last week, all the members of the old Board of Directors were re-elected, as follows:

Volney Taylor, Charles Cople, R. R. Houston, A. Axelson, J. A. Modin, William Saxouer, Charles Peterson.

Later the board met and elected the following officers for the ensuing year:

President, Volney Taylor; vice president, Charles Peterson; secretary R. R. Houston, treasurer, Wm. Saxouer; manager and engineer, J. A. Modin.

Church Sunday

PRESBYTERIAN CHURCH.

The Japanese have a peculiar habit of paying a compliment to the person to whom they are speaking, no matter how deeply their hatred is seated for that person. It has a great moral to teach, and so the subject for the morning at the Presbyterian church is, "Returning Compliments."

The Sunday school and the Men's Bible class meet at 9:45 and a cordial invitation is extended to all who are not in any S. S. to meet with us. The Junior C. E. meets at 3 o'clock, while the Intermediate and Young Peoples' meet at 6:45.

Song service at 7:45 and the evening sermon, "Samson," at 8.

The doors of our church are always open, especially to strangers.

CHURCH OF ST. MARK THE APOSTLE

Corner of Bissell avenue and Tenth street, Rev. P. M. Griffin, pastor in charge. There will be first mass at 8:30 and Sunday school; second mass at 10:30; evening devotion at 7:30.

FIRST CHURCH OF CHRIST, SCIENTIST.

Sunday service at 11 a. m.; Sunday school at 9:30 a. m.; Wednesday evening testimonial meeting at 8 o'clock in the Richmond Club, Nevin avenue, corner 12th street.

STUDENTS AT HIGH ORGANIZE A "COURT"

All incorrigibles at the Richmond Union High school had better toe the mark in the future, for yesterday the student association of the school organized a "regular court" with a judge, a constable and other attaches.

When the offender is brought before the court in the future he will instead of being fined, have some of his recreation privileges denied him. The court officers elected for the term are:

Superior Judge, Chester McAllister; prosecuting attorney, Philip Angell; sheriff, Leonard Gerlach; clerk, Doris McLarney; bailiff, Donald Gray; court reporters, Loretta Keough, Jennie Moore and Gladys Pearson. The civics class constitutes the grand jury.

DISTRICT WILL MEET IN BIG CONVENTION

Among those who will be present at the Annual District Attorneys' convention to be held at the Hotel Oakland next Tuesday will be District Attorney T. D. Johnston of this county together with Assistant District Attorney Wilbur S. Pierce.

The program as arranged for the affair follows:

"Liability of the County and the Municipality Under the Workmen's Compensation Act," by Attorney C. Bradley of San Francisco; "The Present Juvenile Act in Its Enforcement," Assistant District Attorney John A. McGee of San Francisco and Assistant District Attorney Koford of Alameda County; "The Duty of the District Attorney to Institute Criminal Proceedings," District Attorney E. P. Foltz of San Joaquin County; "The Grand Jury; What It Is and What It Might Be," Clarence F. Lea of Sonoma County; "The Redlight Abatement Act and the District Attorney," Alexander L. O'Grady of San Francisco; "The Man Accused of Crime," District Attorney Lyman Evans of Riverside County; "The District Attorney's Office and the General Public," District Attorney Ben F. Gels of Glenn County.

MANY PRIZES GIVEN AT LILLY BRIDGE
